

# SULEIMAN ELKINDY

Software & Web Developer | Computer Scientist

Nairobi, Kenya | +254 743 298 440 | elkindysuleiman@gmail.com | elkindy.me | linkedin.com/in/elkindy-s

## PROFESSIONAL SUMMARY

Computer Science graduate from Zetech University with hands-on experience across software development, web engineering, and IT systems support. Comfortable working the full stack — from C++ and Python to modern web tooling — and equally at home troubleshooting infrastructure and hardware. Currently building freelance software and web projects while pursuing full-time Software Engineering roles.

## PROFESSIONAL EXPERIENCE

### Freelance Software & Web Developer

Sep 2025 – Present

Self-employed

- Design and build websites, custom software, and internal tools for individual and small-business clients.
- Take on IT and hardware support work alongside development — diagnostics, installations, OS recovery, and troubleshooting.
- Own projects end-to-end: requirements, build, deployment, and ongoing support.

### Software Developer & IT Systems Manager

Jun 2025 – Aug 2025

Nairobi City County Government — Finance & Accounting

- Developed an automation web application that streamlined departmental record-keeping and significantly reduced processing time.
- Worked across software design & development, systems administration, database management, and network/cloud infrastructure support.

### Assistant IT Intern

Jan 2025 – Apr 2025

Signon Group Limited

- Provided technical support for hardware, software, and network issues.
- Assisted with system maintenance, installations, and updates.

## EDUCATION

Bachelor of Science in Computer Science — Zetech University, Nairobi, Kenya

Graduated 2025

Kenya Certificate of Secondary Education (KCSE) — Nanyuki School, Laikipia, Kenya

Graduated 2022

## TECHNICAL SKILLS

**Programming:** C, C++, Python, PHP

**Web Development:** HTML, CSS, JavaScript, React (basic), Node.js (basic)

**Databases:** MySQL, MariaDB, SQLite, MongoDB

**Tools & Platforms:** Git, GitHub, VS Code, Linux

**Systems & IT:** Systems Administration, Network Support, OS Installation & Recovery, Disk Cloning & Migration

**Core Competencies:** Software Development, Data Structures & Algorithms, Problem Solving, Team Collaboration

## PROJECTS

**AAirline** — HTML, CSS, JavaScript

Fictional Kenyan airline booking site with flight search, an interactive seat map, and a full checkout flow including simulated M-Pesa payment.  
Live: silver-spork-ruby.vercel.app

**NCG AI-Assisted Bill Recording System** — Python, Tesseract OCR

OCR-driven tool that scans bill documents, extracts key details automatically, and outputs results to Excel with a companion Word document flagging low-confidence fields for manual review.

**Fuzzy Couscous — Pharmacy POS System** — C++

Terminal-based point-of-sale system built from a full requirements spec — product lookup, discount calculation, payment selection, receipt printing, and live inventory updates.

## CERTIFICATIONS & ACHIEVEMENTS

- Ethical Hacking — Udemy
- Machine Learning — Udemy
- Embedded Systems Programming — Udemy
- Hands-on cybersecurity practice on TryHackMe (ethical hacking labs & CTF-style rooms)
- Python Programming and Web Development coursework — freeCodeCamp, 2024
- Top 10 Finalist, Zetech University Hackathon 2023 • Active member, Zetech Computer Science Club

## LANGUAGES & INTERESTS

**Languages:** English (Fluent), Swahili (Native)

**Interests:** Data Science, Cybersecurity, Open Source, UI/UX, Cloud Computing, AI
