

Suleiman Elkindy

Software & Web Developer | Computer Scientist

Nairobi, Kenya | +254 743 298 440 | elkindysuleiman@gmail.com | GitHub: github.com/elkindy-s

PROFESSIONAL SUMMARY

Enthusiastic and self-motivated Computer Science graduate from Zetech University with hands-on experience in software and web development. Skilled in creating efficient, user-focused solutions using modern programming tools and frameworks. Adept at teamwork, problem-solving, and learning new technologies quickly. Passionate about developing scalable applications and pursuing a career in software engineering.

PROFESSIONAL EXPERIENCE

Software Developer & IT Systems Manager

Nairobi County Government — Finance & Accounting

June 2025 – August 2025

- Developed an automation web application that streamlined record-keeping and significantly reduced processing time.
- Provided IT systems support and troubleshooting across the department.

Assistant IT Intern

Siginon Group Limited

January 2025 – April 2025

- Provided technical support for hardware, software, and network issues.
- Assisted in system maintenance, installations, and updates.

EDUCATION

Bachelor of Science in Computer Science — Graduated: 2025

Zetech University, Nairobi, Kenya

Kenya Certificate of Secondary Education (KCSE) — Graduated: 2022

Nanyuki School, Laikipia, Kenya

TECHNICAL SKILLS

Programming: C, C++, Python, PHP

Web Development: HTML, CSS, JavaScript, React (basic), Node.js (basic)

Databases: MySQL, MariaDB, SQLite, MongoDB

Tools & Technologies: Git, GitHub, VS Code, Linux

Core Competencies: Software Development, Data Structures & Algorithms, Problem Solving, Team Collaboration

PROJECTS

Crispy Invention — Responsive Web Page

Developed a responsive website using HTML and CSS to showcase product listings with interactive design elements. Implemented clean UI layouts and optimized code for faster loading.

Fuzzy Couscous — Pharmacy Point of Sale System

Designed and implemented a POS system for pharmacy sales management using Python and MySQL. Features include inventory tracking, sales reporting, and user authentication.

Big Road — Accident Severity Prediction Model

Built a machine learning model to predict road accident severity using Python (Pandas, Scikit-learn). Implemented data preprocessing, model training, and accuracy evaluation.

CERTIFICATIONS & ACHIEVEMENTS

Completed online coursework in Python Programming and Web Development (freeCodeCamp, 2024)

Participated in Zetech University Hackathon 2023 — Top 10 Finalist Active member, Zetech Computer Science Club.<<

LANGUAGES

English: Fluent

Swahili: Native

INTERESTS

Data Science, Cybersecurity, Open-source contribution, UI/UX design, Cloud computing, AI applications.
